## AV-TEST The best antivirus software for Windows Client Business User (Bitdefender Endpoint Security Version 6.2, Windows 7)

During January and February 2017 we continuously evaluated 13 endpoint protection products using settings as provided by the vendor.[...] We focused on realistic test scenarios and challenged the products against real-world threats. Products had to demonstrate their capabilities using all components and protection layers.

## AV-TEST BEST PERFORMANCE 2016 ANNUAL AWARD (Bitdefender Endpoint Security Version 6.2)

Bitdefender Endpoint Security boasts some impressive features

Six tests within the year 2016 with excellent test results in terms of protection were completed by superb performance scores achieved by the Bitdefender protection solution. In managing daily routines, the test systems are not slowed down by Endpoint Security, and the product was able to achieve remarkable results also in the test categories of performance and usability.

"The fact that you don't need to trade good protection for speed in the protected systems was impressively demonstrated by Bitdefender's Endpoint Security solution in our annual year-long tests." - Guido Habicht, CEO AV-TEST GmbH

## VIRUS BULLETIN'S VB100 MAY 2017 (Bitdefender Endpoint Security)

The VB100 award is earned by products that block all files from the WildList (malware reported as having been seen in the wild by security professionals), while generating no false positives when scanning Virus Bulletin's large and regularly updated collection of clean files.

## VIRUS BULLETIN'S VB100 FEBRUARY 2017 (Bitdefender Endpoint Security Version 6.2, Ubuntu Linux Server Edition)

Stability was impeccable, with no problems noted, [...] and very little impact on our set of activities. Detection was as strong as ever, with good scores across the board, and another good showing in the certification sets earns Bitdefender another VB100 award.

## VIRUS BULLETIN'S VB100 FEBRUARY 2016 (Bitdefender Security for Samba Linux)

Detection was excellent [...] with good scores everywhere and the product had no problems earning VB100 certification.

## AV-TEST "TOP PRODUCT" FOR BEST PERFORMANCE IN WINDOWS 10, 8 AND 8.1 TESTING - FEB 2016

(Bitdefender Endpoint security)

Bitdefender solution scored "Top Product" in the newly introduced category Windows Testing. Products achieving 17.5 or 18 out of 18 points are eligible to wear the TOP PRODUCT badge.

## PC MAG "EXCELLENT" AWARD - JAN 2016 (Bitdefender gravityzone business security)

Bitdefender GravityZone Business Security combines outstanding antimalware, malicious URL, and anti-phishing protection with a highly customizable management console. - PC Mag

## VIRUS BULLETIN VBSPAM+ AWARD - JAN 2016 (Bitdefender Security for Mail Servers 3.1.2)

Bitdefender has a long history in these tests, going all the way back to the first VBSpam test in May 2009, and the product has performed well in every one of them. Yet never before has it performed this well: missing just four spam emails and blocking one newsletter as a sole false positive. With an impressively high final score, Bitdefender's developers earn another VBSpam+ award to add to their collection. - Virus Bulletin
